This morning, I planned to pick up from the hotel to the airport at 4:00 for my 6:30 flight. The driver was assigned 10 minutes before the scheduled pickup and the driver insisted on calling to find out where I was going and just two minutes before the scheduled time, for which he gave up because he was going to the airport. The ticket price was 700Poysita had to reassign and send someone at the scheduled time, but to my surprise the app cancelled the full trip and rebookE had to rearrange another cabin, unlike the waiting time in Bangalore, it is usually 30 min this time I received a taxi within 10 minutes. The ticket price I received was 737 including from everything The driver started from my hotel with 2 minutes that he said he had a flat tire and it would take 5 minutes, to fix, but then I realized that he did not have the necessary jack to fix the tire cracked at 4:20 a.m. there was no one and used an archaic way of lining the stones and fixing the tireWhen we reached the airport I was surprised to find my price was 200 more than what I booked and the driver quite hasty to get to the nightmare at the airport General hope Ola to take action I do not bother with this application, just book Uber. I ordered Ola just to see him walk past me and continue driving for 15 minutes to the next suburb, where he made a 5-minute stop and then came back to come pick me up. I tried to call him and ask him to cancel as I didn't want to pay the cancellation fee while he was running his errand. He didn't answer, so I waited and arrived at my destination almost an hour before when I wanted to be there. Every time you charge me at the end, it's always more than the original (ends with more than the percentage of Uber). So many drivers have cancelled. It's just a very unprofessional service that doesn't have to teach its drivers to do their own things at their own times, not while working. Another driver parked for 10 minutes before starting to my location and when I called him, he had his voicemail set up as hello? Hi?..... Hi? I can't hear you right now. How many Dodges? I read the latest reviews and many say what poor service they have and how is not worth the time, but they still give them a 5 star rating? It looks like a fish, but either way, book an Uber. I use travel between countries, choose olacab for local trips, my experience overall 6 cases 4 cases are not good. 1. Driver asked for extra money to take me exactly destination as driver says GPS shows drop-off point, but for me it's not a correct drop-off point. You need more accuracy in GPS localization in quoted sources like Chennai.. 2. The driver is not interested in taking the destination due to expected heavy traffic and driver wants to pay in advance do not know why.. 3. Again GPS pickup location shows inaccurate driver, but I keep calling the driver to come to the place I wanted as I am not familiar with stations to go on the driver's seat wanted.. 4. Driver asked me to give 5 start without giving me a satisfactory ride that is not properly ask. In general really needs to conform WRT drivers, Ola GPS location accuracy, customer pleasure. Otherwise it's a great service spreading rapidly in cities and hopefully it will spread more widely in India. Developer Website App Support App Description Privacy PolicyOla: Get Rides On-DemandOla App Cab allows the easiest and quickest process to book a trip. It is the most popular taxi booking service in India with over three million cabs and taxis in over a hundred cities in India.Popular travel options available include Ola Auto for booking a car without awkwardly waiting hagling for price. Ola Share allows booking in 2 seats or share costs with other passengers. Ola Micro is the cheapest convertible for just 6/ km. Ola Mini is a coquetty ace hatchback with relative prices.
